SUMMARY:

As a passionate and detail-oriented **Junior Full Stack Developer** with two years of freelance experience, I specialize in crafting high-performance, SEO-optimized, and user-friendly websites. My expertise spans HTML, CSS, JavaScript, PHP, WordPress, ReactJS, Node.js, Express.js, and MongoDB, enabling me to develop dynamic and responsive web solutions tailored to business needs.

I am excited about the opportunity to contribute to the development and optimization of websites that drive organic traffic and enhance user experience. I have a strong understanding of website performance, page-load speed, and Core Web Vitals, which align perfectly with your goals. Additionally, I thrive in remote environments, managing multiple projects effectively while ensuring on-time delivery.

I am eager to bring my problem-solving mindset, technical skills, and passion for continuous learning to the team. I look forward to the possibility of discussing how my expertise can add value to your organization.
